Maass Nederland is world's largest and most comprehensive stockist for Butt Welding Fittings, in Low Alloy, Stainless, Duplex and Superduplex steel. Our stock covers a complete range of Elbows, Tees, Reducers and Caps up to and including 36", in a wide variety of material grades.

1/2" - 36" in Wp5, Wp9, Wp11, Wp22 and Wp91

1/2" - 24" in Wp304/304L, 316/316L, 321/321H, 347/347H and UNS S31254

1/2" - 24" in UNS S31803, UNS S32750 and UNS S32760

Our more than 30 years working experience, with leading Chemical, Petro-Chemical, Off - shore and Engineering companies has resulted in a stock with today's most stringent specifications and requirements in addition to the usual ASME/ASTM standards. Our stock of special fittings and pipes in heavy wall thicknesses and special sizes is suitable to cover almost any need in making non-standard fittings for emergency requirement.

Flanges

Maass Nederland is one of the world's largest flange manufacturers, with production facilities in the Netherlands, Germany, the United Kingdom and the USA. Today Maass Nederland is the number one stockist for Stainless, Duplex, Superduplex and Chrome Moly flanges and forged fittings.

Our available stock fittings and flanges is produced by manufacturers accepted by Aramco, Exxon, Shell, Total and most other leading Oil and Gas related companies.

Maass Nederland is located approximately 5 kilometers from Rotterdam sea and airport and close to major highway connections. The total surface of our premises is 20.000m².

The volume of our stock is more than 30.000 tonnes covered by more than 10.000 different products.
