SPECIAL

Our experience of more than 25 years working with leading chemical, petrochemical, off-shore and engineering companies, has resulted in a stock with today's most stringent specifications in addition to the ASME/ASTM standards, to cover virtually every demand.

Our stock of special fittings and pipes in heavy wall thickness and special sizes up to 24" NB, is suitable to cover almost every need in making non-standard fittings and emergency delivery of non-stock material. Our own factory and in-house machine shop enable us to produce all kinds of Flanges, Forgings, Nozzles, Fittings and other products to customer requirements on emergency basis.

QUALITY ASSURANCE, CONTROL AND TESTING

We are familiar with additional testing and certification in accordance with national as well as international standards and specific customer requirements.

Since 1988, our company is ISO 9001 certified.

All our products are manufactured by ISO certified manufacturers and approved by all major Oil /Petrochemical and Offshore companies.
