W. Maass Nederland BV

The world's largest and most comprehensive stockholder for stainless steel Butt-weld Fittings

OUR STOCK PROGRAM COMPRISES OF

- Elbows, 45, 90 and 180 degrees long and short radius, concentric and eccentric reducers, equal-and reducing tees and caps.
- Dimensions and tolerances in accordance with ANSI / ASME SB16.9, SB16.28, MSS-SP43
- Wall thickness available from schedule 10S up to and including schedule 160/XXS
- Sizes from 0,5" N.B up to and including 24" N.B

EXOTICS AND NICKEL ALLOYS

W.Maass Nederland stocks pipes and forgings in a wide variety of nickel and titanium alloys enabling us to produce any kind of special fitting.

SPECIAL

Our experience of more than 25 years working with leading chemical, petrochemical, off-shore and engineering companies, has resulted in a stock with today's most stringent specifications in addition to the ASME/ASTM standards, to cover virtually every demand.

Our stock of special fittings and pipes in heavy wall thickness and special sizes up to 24" NB, is suitable to cover almost every need in making non-standard fittings and emergency delivery of non-stock material.

In addition, our pipes are available for direct sale in either random or fix lengths.
